

PHASE SIX FUNDING ITAC COVID-19 STIMULUS DEVELOPMENT FUND

October 22, 2020

Phase 6 of ITAC's COVID-19 Stimulus Development will see 233 Indigenous tourism operators receive much needed financial support to help recover and build resiliency against the devastating effects of COVID-19 on the beleaguered industry. With grants of up to \$25,000 per applicant, this phase represents \$5,659,200 in non-repayable contributions awarded to a mix of export-, market- and visitor-ready Indigenous businesses across Canada.

Originally established March 2020, ITAC deferred its annual development grant money along with a large amount of savings from other programs to fund the COVID-19 Stimulus Development Fund. The Fund was subsequently also supported by the federal government via Indigenous Services Canada through stimulus funding committed to Indigenous businesses in April 2020 in response to ITAC's pointed advocacy campaign that brought forth the impacts that COVID-19 was having on the once-thriving Indigenous tourism sector.

Including this phase, ITAC has awarded 678 grants and \$16.212M. This was made possible with the support of the Federal Government of Canada and the Indigenous Services Canada. This is the final phase of the COVID-19 Stimulus Development Fund allocations for the past 2 intakes and ITAC will be assessing future funding needs shortly especially with the second wave of this pandemic.

We take our responsibility for protecting and growing the Indigenous tourism industry across the country very seriously and we are proud to be able to do so now when we are needed the most.
